# IRISH TREE ALPHABET

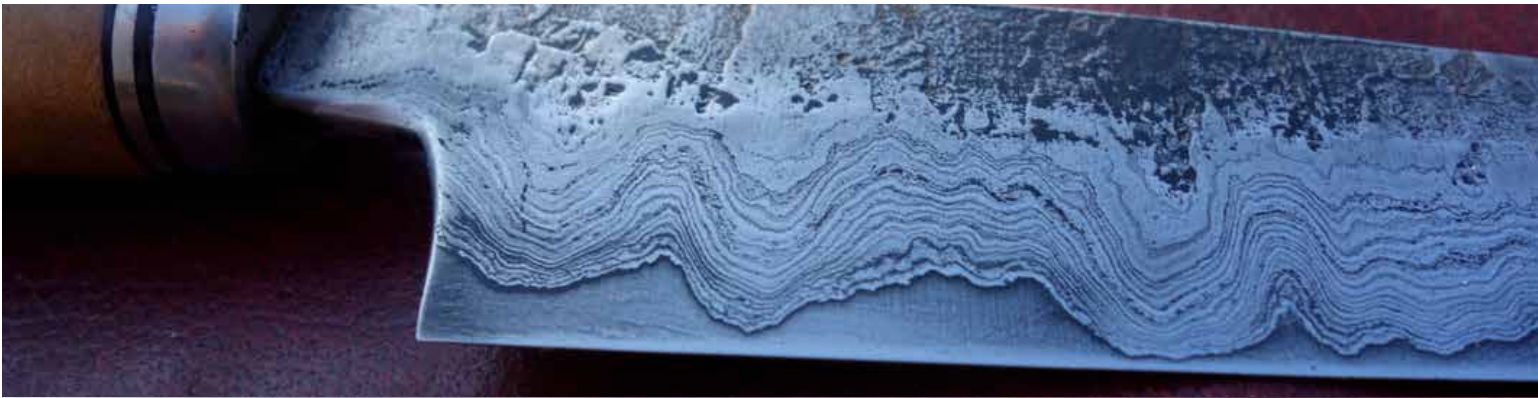

**“Perhaps diet culture never retreated but just rebranded as ‘wellness.’**

## Who's Afraid of ChatGPT?

Teachers, journalists, and Google are decrying ChatGPT's dangers. But even some of its biggest fans consider it "as mundane as Excel." Who's right?

## Let's Use a Chatbot to Fill Out a Bracket

We asked Microsoft's Bing to make its own N.C.A.A. tournament picks. And asked again. And asked some more.

## GPT-4 Is Exciting and Scary

Today, the new language model from OpenAI may not seem all that dangerous. But the worst risks are the ones we cannot anticipate, our columnist writes.

Developed by researchers at Purdue University, the paint reflects 98.1 percent of sunlight

Don't worry about this world; it is not broken. And don't worry about others. You worry more about them than they do. There are people waging war; there are people on the battlefield who are more alive than they've ever been before. Don't try to protect people from life; just let them have their experience while you focus upon your own experience.
